

PROGRAM

Spine Academy Meeting 2017

Wednesday, April 26th – Friday, April 28th
Ulm, Germany

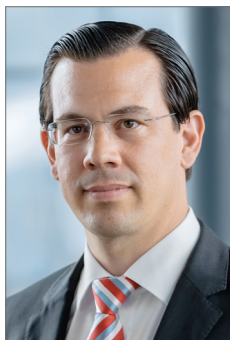

3 days full of spinal experiences,
learning and discussions

INVITATION

**Esteemed Physicians, Customers
and Colleagues,**

With our 4th Spine Academy Meeting, from 26th to 28th April 2017, we invite surgeons, neurosurgeons and orthopedists from all over the world to Ulm. Come and follow our invitation to this top-class symposium! Attend and learn what's new in the field of spinal surgery, swap ideas and information with international colleagues!

As in the last meetings, we will be hosting a variety of renowned spine specialists for you. They will lead you through an appealing and informative 3-day program filled with interesting lectures, case discussions, live recordings of spinal surgeries and hands-on workshops.

The transfer of knowledge of the spinal experts, the exchange of experiences amongst neurosurgeons, orthopedists and trauma surgeons is a particular focal point of the Spine Academy Meeting. The participants have the opportunity to discuss their own and others' cases in small working groups, facilitated by experts, for more than two hours every day.

I look forward to welcoming you to Ulm in April.

A handwritten signature in blue ink that reads "Christoph Ulrich". The signature is fluid and cursive.

Christoph Ulrich
Managing Partner

PROGRAM

Wednesday, April 26th, 2017

Thoracolumbar fusion strategies in trauma, revision and tumor

Moderation M. Richter

| | | |
|------------|--|-----------------------------|
| 7:45 a.m. | Pickup at hotel | |
| 8:30 a.m. | Opening and Introduction | M. Richter |
| 8:45 a.m. | Lectures (15 min each): | |
| | Fracture management in thoracolumbar fusion | N. Francaviglia |
| | Reduction technique in open and percutaneous posterior stabilisation | T. Strohmam |
| | Overview surgical approaches and techniques in endoscopic vertebral body replacement | C. Neumann |
| | Percutaneous cement-augmented screw fixation of the aging spine | J. Richolt |
| | Indications and techniques for advanced sacro-iliacal fixation | M. Richter |
| | Operative strategies in tumor | M. Abdulhak |
| 10:30 a.m. | Discussion of Lectures | M. Richter |
| 10:50 a.m. | 20 min. Break | |
| 11:10 a.m. | Commented video film: "Percutaneous fracture stabilization with a new distraction and compression tool" | T. Strohmam / C. Neumann |
| 11:30 a.m. | Case discussions in small groups – Session 1 | |
| 12:30 p.m. | Lunch | |
| 1:30 p.m. | Case discussions in small groups – Session 2 | |
| 3:30 p.m. | 20 min. Break | |
| 3:50 p.m. | Hands-on Sawbones | |
| 4:50 p.m. | Summary | C. Neumann |
| 5:00 p.m. | End – Transfer to hotel | |
| 6:45 p.m. | Meet at hotel lobby and walk together to restaurant | |
| 7:00 p.m. | Dinner at restaurant "Bellavista" | |

PROGRAM

Thursday, April 27th, 2017

Posterior dynamic stabilization in degenerative spine diseases

Moderation P. Vajkoczy

| | | |
|------------|---|------------------|
| 7:45 a.m. | Pickup at hotel | |
| 8:30 a.m. | Opening and Introduction | P. Vajkoczy |
| 8:45 a.m. | Lectures (15 min each): | |
| | Biomechanical characteristics of different non-fusion implants | H. Wilke |
| | Posterior dynamic screw rod system – Overview surgical approach and technique – What are the right indications? | P. Vajkoczy |
| | Clinical experience with a posterior dynamic screw rod system in non-fusion and hybrid fusions | N. Abu-Dayyah |
| | 8 years of Follow-up from a prospective study of 107 patients for non-fusion stabilization | P. de Muelenaere |
| | Limitations of lumbar total disc replacement | B. Cakir |
| | Dynamic lumbar techniques – Expectations and evidence | M. Stoffel |
| 10:30 a.m. | Discussion of Lectures | P. Vajkoczy |
| 10:50 a.m. | 20 min. Break | |
| 11:10 a.m. | Commented video film: Dynamic stabilization with a rod-screw-system | P. Vajkoczy |
| 11:30 a.m. | Case discussions in small groups – Session 1 | |
| 12:30 p.m. | Lunch | |
| 1:30 p.m. | Case discussions in small groups – Session 2 | |
| 3:30 p.m. | 20 min. Break | |
| 3:50 p.m. | Hands-on Sawbones | |
| 4:50 p.m. | Summary | B. Cakir |
| 5:00 p.m. | End – Transfer to hotel | |
| 6:45 p.m. | Pickup at hotel | |
| 7:30 p.m. | Ulrich Medical® Evening with a guided factory tour | |
| 10:00 p.m. | Transfer to hotel | |

PROGRAM

Friday, April 28th, 2017

Fusion techniques with cages in cervical and thoracolumbar spine

Moderation F. Vazifehdan

| | | |
|------------|---|----------------|
| 7:45 a.m. | Pickup at hotel | |
| 8:30 a.m. | Opening and Introduction | F. Vazifehdan |
| 8:45 a.m. | Lectures (15 min each): | |
| | Thoracolumbar Session | |
| | Sagittal balance and its relevance in spine surgery | F. Vazifehdan |
| | Indications, approach and operative technique with PLIF/TLIF | H. Trouillier |
| | Indications, approach and operative technique with ALIF and VBR | C. Bach |
| | Device associated complications due to ALIF-, TLIF- and PLIF-Cages | T. Ernstberger |
| | Cervical Session | |
| | Indications, approach and operative technique in fusion and fracture | J. Oertel |
| | Indications, approach and operative technique in vertebral body replacement | U. Hubbe |
| | PEEK vs. Titan – Results of a clinical study | F. Vazifehdan |
| 10:30 a.m. | Discussion of Lectures | |
| 10:50 a.m. | 20 min. Break | |
| 11:10 a.m. | Commented video film: Fusion technique with TLIF and a rod-screw-system | F. Vazifehdan |
| 11:30 a.m. | Case discussions in small groups – Session 1 | |
| 12:30 p.m. | Lunch | |
| 1:30 p.m. | Case discussions in small groups – Session 2 | |
| 3:00 p.m. | 15 min. Break | |
| 3:15 p.m. | Hands-on Sawbones | |
| 4:15 p.m. | Summary | T. Ernstberger |
| 4:30 p.m. | End – Transfer to hotel, train station | |

REGISTRATION

I herewith sign up for the 4th Spine Academy Meeting,
April 26th - 28th, 2017

Title _____
